

OBJECTIVE

Enthusiastic and dedicated student pursuing ECE with a strong academic foundation and aspiring to begin a career in software development to gain hands-on experience in a professional environment. Eager to apply theoretical knowledge to practical challenges. Quick learner with strong problem-solving and teamwork skills. Committed to contributing positively to the organization while growing professionally.

EDUCATION

Degree	Specialization	Institute	Year	Score
B.Tech	<i>Electronics & communication Engineering (ECE)</i>	SVCE	2022 - 2026	7.94
BIEAP	MPC	Narayana jr College	2020 - 2022	7.45
SSC	-	Narayana Em School	2019 - 2020	10.0

INTERNSHIPS

- **Competitive Programming and Advanced Algorithmic Techniques** *May-Jul 2025*
 - Actively participated in Competitive Programming, solving complex problems on data structures and algorithms.
 - Solved coding challenges under time constraints, improving logical thinking and coding speed.
- **Virtual Internship as Python Developer in Prowork Foundation**
 - Developed Python-based applications to strengthen programming fundamentals and problem-solving skills.
 - Built mini-projects like weather app, data analysis dashboard, and automation scripts.

PROJECTS

- **To-Do List**
 - Designed a To-Do List web application using Python, Django, HTML, CSS, and JavaScript, enabling users to add, update, and delete tasks efficiently.
 - Integrated user authentication and database (SQL) management to securely store and track user-specific tasks.
- **Weather API**
 - Programmed a Weather Forecast Application using HTML, CSS, JavaScript, integrating real-time data from Open Weather API.
 - Implemented API calls to fetch live temperature, humidity, wind speed, and weather conditions based on user-entered city/location.
- **Marine Debris Detection Using Side Scan Sonar**
 - Built a system to detect marine debris using Side Scan Sonar images, focusing on identifying underwater waste and objects.
 - Preprocessed sonar image datasets and applied image enhancement techniques to improve debris visibility and reduce noise.

SKILLS

- **Programming:** Python, Javascript, Html5, Css3
- **Framework/Libraries:** Numpy, Pandas, Matplotlib
- **Core CS Concepts:** Object-Oriented Programming (OOP), Operating Systems, Computer Networks.
- **Tools/Platform:** VS Code, Excel, Git/GitHub
- **Databases/Cloud:** MySQL
- **Soft Skills:** Communication, Cooperative Management, Adaptability, Teamwork

ACHIEVEMENTS CERTIFICATIONS

- **HackerRank-** Python(intermediate)
- **Linkedin-** Python Essential Training
- **Linkedin-** Certified Entry-Level Python Programmer
- **Six Phrase-** Competitive Programming and Advanced Algorithmic Techniques

STRENGTHS

- Quick learner and highly adaptable
- Strong leadership and communication skills
- Passionate about continuous learning and growth
